-----Added Lots-----

Lot 28 Pick of the Beastrom Ranch 2010 Bred Heifers Consignor: Beastrom Ranch, Pierre, SD

Due to uncontrollable circumstances we were unable to bring our National Sale Entry (Lot 15) to Denver, so we decided to swing the gates open wide and offer you choice of our entire bred heifer pen, reds, blacks, purebreds or Balancer. Lot 15 (included in the pick) is a prime example of what there will be to choose from. We firmly believe that strong females are the backbone of an operation and strive to produce cattle that offer consistency, power and performance combined with strong maternal traits and balanced EPDS.

Your Pick of 70 bred heifers that start calving January 22nd, so by the time you arrive to select your pick a majority will have calves at side.

The red females are bred to BABR "Cartwright" 003X (1157260), a young red purebred herd bull out of AHL Hott Damn 31L. We think so highly of him every red heifer is bred "Cartwright"

The black females are either AI bred to SAV Camaro 9272 (16396573), a son of SAV Final Answer, known for his explosive ribshape and performance or to BEA "Teddy" 941W (1124853) a Balancer bull that we cannot get enough of, he offers, depth of rib, muscle shape and one heck of a phenotype. Be sure to see Teddy in our stalls this NWSS. For additional info please contact Jim Beastrom 605-280-7589 or Brittney 605-280-0204

Lot 29 Double Polled Purebred Donor Female ● Selling ½ Embryo Interest.

Consignor: Wes and Brittney Spencer, Pierre, SD

Name: BEA Cindy Lou Who 0001x ET Reg. No. (1149224) BD: 2/23/10 BW:87 WW: 704 Tattoo: 0001X Sire: RID R Collateral 2R (938431) Dam: BEA Ella ET (1030922) 2011 Winter EPDs: CE 105; BW 2.7; WW 43; YW 81; M 17; TM 39; GL -1.1; CED 99; SC 0.7 CW 19; RE 0.13; MB 0.00; DtF 2.5; CV 21.96 and FM 15.23.

We were unable to offer our original entry for the National Sale due to circumstances that we were unable to control, but we wanted very much to participate in this event, there is so much to be excited about within the industry and the Gelbvieh Breed right now. After discussing things with Roger and a little arm twisting we have decided to offer an embryo interest in a female that has all of the pieces and the pedigree to become a leading producer in this breed. BEA Cindy Lou Who has been a stand out since day one, she has steadily come one with every growing stage and consistently gets more and more impressive all of the time. She is long spined, has a big stout foot coupled with loads of natural volume, rib shape and a beautiful profile. She is just the "right" height and is the perfect combination of femininity and power. Cindy comes from a lineup of powerful producing donor females on both the top and bottom sides. Bar GT Loni 27N ET, Claudia 1144J, Vickie Vail, and Miss Austin 67 L and new to the lineup BEA Ella 7000T Cindy's dam. Ella produced a flush that had everyone talking in 2011, progeny include: BEA Passion 001X ET the 2011 Breeders Choice Bull Futurity Champion and 2011 National Champion Gelbvieh Bull, JCGR BAR GT Ella 265X the 2011 AGJA Reserve Champion Gelbvieh Female and most recently the Reserve Champion Gelbvieh Female at the 2011 NAILE Eastern National Gelbvieh Show and their flush mate Cindy Lou Who 0001X ET. If you are looking for genetics that are leading the industry, look no further than this rare opportunity to own part of a female that will create endless opportunities for your program. For more information please contact us at Brittney Spencer 605-280-0204 or Jim Beastrom 605-280-7589.
